

# AGRI-ENVIRONMENTAL Engineering

## Is it for you?

Is protecting the environment important to you?

Would you like to contribute to sustainable development?

### DID YOU KNOW THAT...

Quebec is in a good position to face current and future challenges.

Farms are now part of a thriving international agri-food industry.

### WHAT DO THESE ENGINEERS DO?

Design machines that mechanize and automate agricultural work such as seeding, planting, protecting crops, harvesting and handling products.

Create a range of drainage, irrigation, temperature and humidity control, energy consumption and other systems.

Design systems and processes for handling, treating, preserving and processing agricultural and food products.

Conduct quality control studies to assess the impact of agricultural practices.

### WHERE DO THESE ENGINEERS WORK?

- Agricultural producer associations
- Consulting engineering firms
- Agricultural enterprises
- Educational institutions
- Federal and provincial government
- Food and beverage industry
- International aid organizations
